

WEB DEV SEMINAR

A GREAT TOOL TO FIND A JOB

WEB DEV SEMINAR

Digital resume

For the next two days, you'll train your HTML/CSS skills and upgrade your resume at a new level.

Design and create a page (or a set of pages) that you could host to have an online resume.

Feel free to add animations and stuff, it can both improve your resume for the viewer and show your personality.

Organize cleverly your files and directories!
The usage of frameworks and librairies is authorized.
Remember that the viewers could be some potential recruiters.

Here are some examples:

- ✓ a funny one, inspired by amazon
- ✓ an interactive and graphical one

Your code should be clean and use the proper HTML and CSS properties.
Your code should present a clear separation between HTML and CSS.
Your website **MUST** be responsive!
